

PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON

Petition summary and background:

Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;
Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;
Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;
Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.
Be it therefore resolved, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.

Action petitioned for: We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton

PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON

Petition summary and background:

Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;
Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;
Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;
Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.
Be it therefore resolved, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.

Action petitioned for: We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton

PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON

Petition summary
 and background:

Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;
Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;
Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;
Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.
Be it therefore resolved, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.

Action petitioned for: We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton

Re: **Opposition to proposed psychiatric facility in Templeton**

The undersigned, a concerned citizen, urges our leaders to act now to vote against the proposed psychiatric facility in Templeton.

Concerns about the proposed psychiatric facility include:

- Imports large numbers of patients from other counties; exceeds SLO County's needs by approx. 90%;
- Facility is not a secure facility. Adult patients may leave anytime, day or night;
- Burdens SLO County resources such as public safety, schools, traffic infrastructure;
- Houses school-aged children patients; creates financial burden on School District;
- Community in Templeton lacks support resources for large quantity of patients discharged;
- Close proximity to residential neighborhoods full of young children;
- Project goes against recommendations of TAAG;
- Project goes against concerns of many local Physicians;
- Project goes against concerns raised by the Templeton Unified School District;
- Location and size driven by investor motives;
- Majority of community believes it is the wrong place and wrong size for our community;

PLEASE OPPOSE THE PROPOSED FACILITY.

Thank you.

- Project goes against concerns raised by the Templeton Unified School District;
- Location and size driven by investor motives;
- Majority of community believes it is the wrong place and wrong size for our community;

PLEASE OPPOSE THE PROPOSED FACILITY.

Thank you.

Re: **Opposition to proposed psychiatric facility in Templeton**

The undersigned, a concerned citizen, urges our leaders to act now to vote against the proposed psychiatric facility in Templeton.

Concerns about the proposed psychiatric facility include:

- Imports large numbers of patients from other counties; exceeds SLO County's needs by approx. 90%;
- ✓ • Facility is not a secure facility. Adult patients may leave anytime, day or night;
- Burdens SLO County resources such as public safety, schools, traffic infrastructure;
- Houses school-aged children patients; creates financial burden on School District;
- Community in Templeton lacks support resources for large quantity of patients discharged;
- ✓ • Close proximity to residential neighborhoods full of young children;
- Project goes against recommendations of TAAG;
- ✓ • Project goes against concerns of many local Physicians;
- Project goes against concerns raised by the Templeton Unified School District;
- ✓ ✓ • Location and size driven by investor motives;
- ✓ ✓ • Majority of community believes it is the wrong place and wrong size for our community;

PLEASE OPPOSE THE PROPOSED FACILITY.

Thank you.

PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON

Petition summary and background:

Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;
Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;
Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;
Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.
Be it therefore resolved, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.

Action petitioned for: We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton
